Application Fee:	
Other Fees (e.g. amendment, assignment):	
Total:	

¹“Municipal and Industrial” means the use of water by individuals, cities, towns, public or quasi-public districts, private corporations, homeowners associations, or other entities for domestic, municipal, and miscellaneous related purposes as those terms are traditionally and commonly construed, including the use of water for purposes of producing or processing a non-agricultural product or service for sale, including without limitations, such uses as manufacturing, mining, milling, land reclamation, golf course irrigation, snowmaking, and non-hydroelectric power generation; [For Colorado River supplies only; and including the use of water for environmental mitigation purposes associated with such uses;] but excepting the agricultural use of water defined herein.

²“Agricultural” means the use of water for commercial production of agricultural crops and livestock and other uses consistent with any right decreed for irrigation purposes, which uses are made on a parcel of land of at least ten acres.

The District may require further information to be submitted to process this application. If the use of this water is determined by an applicable Federal agency to require site-specific compliance with the National Environmental Policy Act (NEPA), that compliance will be the responsibility of the Applicant. Applicant is responsible for consulting with the Army Corp of Engineers regarding the need to comply with Section 404 of the Clean Water Act as the result of the construction of any facilities necessary to use the contract water.

Any assignment and/or amendment must be in compliance with the River District's Water Marketing Policy. The Applicant hereby acknowledges receipt of the current Water Marketing Policy of the Colorado River Water Conservation District's Colorado River Water Projects Enterprise (Policy).

*Pursuant to the Policy, the Enterprise will oppose Water Court applications that propose use of the Enterprise's water supplies without the existence of a current Water Supply Contract or are otherwise at variance with the Policy. If the Applicant has filed a Water Court application without having executed a Water Supply Contract and the Enterprise has opposed that application, the Water Supply Contract application fee is \$800.00

**Applicants are advised to identify Wolford Mountain Reservoir and Ruedi Reservoir in all applications and/or decrees relying on the Enterprise's Colorado River Supply or Eagle River Supply.
